The Pediatric Colorectal and Pelvic Reconstruction
Conference: Surgical, Clinical and Scientific Programs

November 13 - 15, 2024 • Atlanta, GA

INVITATION

Dear Colleagues,

The Pediatric Colorectal and Pelvic Learning Consortium (PCPLC) was organized in 2016 as an international consortium of surgeons, scientists, and other specialists in order to facilitate research on anorectal malformations, Hirschsprung disease, and other colorectal and pelvic disorders. The PCPLC includes clinical centers and a central data coordinating center, with members organized into a Steering Committee, subcommittees, and working groups.

The mission of the PCPLC is to improve the care of patients with anorectal malformations, Hirschsprung disease, pelvic anomalies, intestinal dysmotility and fecal incontinence. We facilitate collaborative research through: defining evidence-based best clinical practices, creating an international patient registry, promoting the career development of our members, engaging in multi-disciplinary collaborations to enhance patient care, and teaching through educational programs among participating clinical sites and other centers.

Industry partners continue to be an essential part of our meetings success. Thank you for considering our request for sponsorship and participation. We look forward to receiving your commitment. If you have any questions, please contact Lauren Johnson, ljohnson@veritasamc.com or 847-752-5920.

Sincerely,

A handwritten signature in black ink that reads 'Lauren Johnson' in a cursive script.
